■ Aizir

Everyone with a healthy and beautiful smile

Product advantage >>>

Aizir

Aizir represents Aidite's most advanced R&D and production lever integrating several patented technologies in one disc, meanwhile meeting the full range of indications. It has larger systematic processing, a wider sintering temperature range, and an increased stable three-dimensional gradient effect.

Aizir will uphold the vision of "making people healthier and more beautiful" and redefine all-ceramic prosthetic materials.

16 years

Aidite has 16 years of experience in the development and production of zirconia, with stable material performance.

2h

On the basis of realizing rapid sintering, Aizir is compatible with many kinds of Aidite zirconia materials (such as SHT-PC, SHTM) to achieve simultaneous sintering of multiple materials.

1510-1570°C

Aizir has an ultra-wide sintering temperature range, giving a perfect bionic aesthetic effect at different temperatures.

Incisal layer

53% Translucency 700MPa

Cervical layer

43% Translucency 1050MPa

Parameters and application systems >>>

Color	Vita 16 colors/OM1/OM2/OM3
Aesthetic	Super high translucency
Sintered density	$\geq 6.0\text{g/cm}^3$
Bending strength	Cervical part 1050MPa
Fracture toughness	5Mpa $\text{m}^{0.5}$
Hardness (Hv10)	1250

Digital work flow >>>

Aizir is one incredible material, which can be used in the above systems, but it is also part of an entire digital workflow. From the intraoral scan to the final restoration, Aidite have validated workflows with equipment and material for the whole process. Can be achieved faster production time and higher quality with Aizir ,take advantages of our service full technical and engineer support, through our dealers and ourselves 7days 24hours never stop worldwide. With Aizir, you are not just purchasing any ordinary zirconia disc, but investing in a part of a wider dedicated system, benefiting the whole dental team and their patients. Dentists will definitely need it once they find out how different it is.
